

Board members, new and existing...

Awesome! I'm glad Brad is joining the board!! He brings a multitude of experience and smarts on water issues (not just politics). TEAM (!), along with mainstays Gayle and Jan. The new board has the opportunity to do some pretty good things (and thinks) for Marina Coast and its customers; that is if they put aside petty differences and politics (yes, they are petty...) Work together, not against each other, and choose collectively to be one board.

Bob (Nolan)
