## ***Important Water System Improvement Project Underway***

### ***Some Traffic Delays on California Avenue & Imjin Parkway Expected***

**Marina Coast Water District (District) has been working hard on an important project to improve your water system.** Over the past few weeks, the District has been working on a project to replace existing pipeline which should be completed this month. Although there have been some nighttime traffic delays on California Avenue & Imjin Parkway, the District is pleased to see these are minimal and not during daytime hours. Please see additional information on the project's details, schedule, and costs below.

**Project Completion Scheduled for End of August.** Marina Coast Water District is replacing 1,675 feet of 24-inch-wide water pipeline along the northbound lane of California Avenue from Marina Heights Drive crossing Imjin Parkway and turning east for 400 feet.

**No Daytime Delays Expected.** The night work portion, specifically for the Imjin Parkway installation, takes place from 7 PM to 6 AM. This will impact traffic on Imjin Parkway during these hours, with no daytime traffic disruptions expected.

**Project Will Slow Traffic at Night but No Stoppages Expected.** Traffic control measures, approved by the City of Marina are in place to manage the flow of vehicles. While one lane may be closed, the impact will be minimized, primarily resulting in slower traffic rather than major stoppages.

**More Project Details.** The new pipeline is made of Ductile Iron, an extremely durable and long-lasting material. This \$1.79 million project is part of an extensive program of water and sewer system upgrades, replacements, and renewals for the fiscal year.

**Please Contact Us if You Have Questions.** For questions or concerns, please contact Jack Gao, MCWD Senior Project Manager, at [jgao@mcwd.org](mailto:jgao@mcwd.org) or Erik Mendoza Nava, City of Marina Consultant Senior Inspector, at [enava@cityofmarina.org](mailto:enava@cityofmarina.org)

**THANK YOU FOR YOUR PATIENCE WHILE WE COMPLETE THIS IMPORTANT PROJECT.**

###

**About Marina Coast Water District:** The MCWD's mission is to provide customers with high quality potable and recycled water, wastewater collection, and conservation services that are safe, affordable, reliable, and sustainable through planning, management, and development of water resources in an environmentally sensitive manner.
